Increase (Decrease) Rate from previous year		5.64		-0.87		5.33

2.3 Marketing and Competition Condition

2.3.1 Products Marketing Policy over the past years

Products of the Company mostly is made to the customers' order and distributed to domestic and export markets. For the export sale, we focus on major customers and high quality products, along with presenting various products in order to support the steadily increasing order from customers. Many customers will place confidence in the Company expert in this field and plastic packaging, therefore we can maintain business relationship with customers consistently. Additionally, the Company focuses on developing a product originality and keeping up the change in trendy, including the special product feature or quality in order to support customers demand with diversity and rapidly changing trends. Almost drinking straws and plastic bag products are classified in the premium group and high quality products, for instance; Zipper bags with special features, Fresh & Fresh bags with exclusive features and garbage bags and drinking straws responded to the customer need which comes in a variety of forms. Oversea customers were mostly regular customer who do the business with the Company more than 5 years.

Domestic customers, we would focus on industry groups who used products in type of the customer demand for example; zipper bags as well as to offer variety products to the large retailers under Sun brand as:

- Plastic products for a garbage are under a brand's name of SUNBAG and SUNBIN.
- Plastic Zipper bags for food preservation are under a brand's name of SUNZIP.
- Plastic Zipper bags for breast milk storage are under a brand's name of SUNMUM.
- Modified Atmosphere Packaging for vegetables and fruits are under a brand's name of Fresh & Fresh
- Drinking straw products are under a brand's name of SUN STRAW.
- In addition, the Company has made to order under the customer's brand or based on the purchase's order.

The Company has provided the complaints handling process for customers and consumers with systematic and explicit procedures from the customer satisfaction survey of products and the Company's service, as well as price, quality and delivery. For 2020, the survey concluded that exporting customers are satisfied at 86% and domestic customers are satisfied at 90.12%

-Signature-

..... Authenticate

With the capacity of a wide range of products and commitment to develop style and quality products leads to the Company's ability to compete with domestic and international competitor as the sales percentage below.

Table 2: Domestic and Export sale table as of December 31, 2020

(Unit: Million Baht)

List of items	Plastic bags product	Straws product	Others product	Total
Abroad	2,317.30	143.00	120.30	2,580.60
Domestic	248.30	139.60	57.40	445.30
Total	2,565.60	282.60	177.70	3,025.90
Abroad (%)	90.32	50.60	67.70	85.28

Table 3: Export Sale by Region table as of December 31, 2020

(Unit: Million Baht)

List of countries	Plastic bags product	Straws product	Others product	Total
Europe	1,593.70	57.40	114.60	1,765.70
Australia and New Zealand	155.10	0.10	0.10	155.30
America	415.30	23.50	11.00	449.80
Asia and others	390.70	4.60	3.80	399.10
Total	2,554.80	85.60	129.50	2,769.90

The Target Customers of Export Sale

1) Importers under their Own Brands

The customers who are importers and distributors under their own brands and they also manage their marketing strategies by own as well.

2) Importers for Stores

The customers who are importers and distributors for the stores only.

3) Wholesalers/distributors

The customers who are importers and distributors for the retail stores. During the year of 2020, the Company had an oversea customer with total orders 30 % of the total sales. The products that the customer ordered with the Company were Plastic bags, Drinking straws and other products. However, this customer is not a subsidiary or affiliate of the Company.

The Target Market of Domestic Sale: The Company would be a distributor directly to the customers for instance; Industrial customers who need to use plastic bags, wholesalers and put on sale in large retailers.

..... Authenticate

2.3.2 Competitive Market conditions within Industry

Referring to research conducted by Plastic Institute of Thailand, the overview of plastic industries since 2020 shows that the production index will decrease 0.48 percent compared to 2019. The export sector decreased 0.12 percent and the import sector decreased 7.29 percent because the global economy is slow-downed and the appreciation of Thai baht.

For the year 2021, the production index is expected to expand by 1-2 percent. The export of plastic products is expected to grow by 3.50 - 4.50 percent compared to the year 2020. The trend of the plastic industry in 2021 is expected to grow slightly due to the government's investment promotion policy but there are still factors that will affect the growth of the plastic industry such as

- The direction of the crude oil price in the world market still fluctuation. As a result, price of the plastic resin as the main raw material for the production of plastic products is fluctuating and it effects to the cost of production.
- US and China trade war tends to affect the global economic slowdown leading to the deceleration of global demand.
- The steady appreciation of Thai baht has an impact on a slowdown in exports.
- Trends of the environmental movement, both inside and outside country expectedly send out a clearer signal which may affect domestic and export sales to have more limitations.

In Thailand, there were many manufactures in the plastic bag industries which were both small, medium and large size, and there was the large plastic bag manufacturer whose the production of plastic bags were the same group with the Company. For the export mainly was approximately more than 10 cases, each of them might has a type and format of the product in a difference way. Mostly were price competitions, form of product and service delivery. The Company is a manufacturer in the market for such a long period with the advantage over existing customers. In addition, the Company is the manufacturer for the big exporter in Thailand with standard and recognize by the overseas customers.

Apart from the domestic competition, plastic bags and drinking straws industries still have been competing with foreign manufacturers for instance; China and Vietnam that have developed their own products by taking an advantage on lower labor cost, so that the product price was lower than Thailand's products, and they also have been expanding to the global markets. During the past years in Thailand, plastics and drinking straws industries were encountered with a threat in competitions both inside and outside country. Thailand plastic bag manufacturers, therefore, needed to adapt with the increasing competition. For the big threat that affected to the plastic bag manufactures was the cheaper price in products which produced from China as well as lowering Thai's plastic product price in the global market and China's products had an advantage on the lower labor cost. However, products in the value-added categories of China which was the same as the Company's categories; Fresh & Fresh and Zipper bags. Currently, manufacturers in China could not produce to meet the customer need regarding their products quality.

-Signature-

..... Authenticate

Tendency of the use of plastic bags and drinking straws in the country and oversea was increased, and market demand and industry trends have been expanding continuously, however it is necessary to consider the overview of economic conditions both domestic and worldwide which was still volatility and high uncertainty. Although the economic situation in United States, Europe and Asia was recovered from the political problem, the economic situation in the country was still high uncertainty. Therefore, the economic condition of Thailand might slow down including relatively high circumstance competitive, along with the product price which still was concerned by the competition both inside and outside countries. The expansion of the Company's plastic and drinking straw sales were expected to grow slightly.

2.4 Raw Materials Procurement

2.4.1 Appearance of the acquisition of products

The major raw materials which were used in our production process were Polyethylene and Polypropylene. The Company had recognized the quality of raw materials to meet the standard. Price was also an important factor for purchase decisions. As the price was fluctuated, due to the market mechanisms. We had continued to update the local and overseas resin prices, then we were able to acquire a reasonable price of raw materials in that market situation. In addition, we have planned to make a purchase's report to comply with the flow of raw material in the warehouse and keep pace with the job to avoid the raw materials shortage.

In 2020, the Company purchased the raw materials from local approx. 25% and overseas 75% which was local distributors about 39 distributors and overseas distributors about 20 distributors. The Company had prevented the risk on shortage of supply, then we made contracts with four manufactures to purchase raw materials from foreign countries. Total of the purchase raw materials over the past years were 63% The Company had never faced with the raw materials shortage in our production. Furthermore, we also sought more new sources to recognize a good relationship with our suppliers for the good growth. Presently, the Company has a maximum annual production capacity of approximately 26,000 tons per year for all products.

2.4.2 Environmental impact from production process or waste disposal

The Company has attained standard for environmental management systems (ISO: 14001:2015) which focused on the environmental protection of impact and the Environmental Management with regulatory, in accordance with the nature of business and related laws. There was also the disposal of waste or debris. The Company had recruited a service provider to comply with relevant laws. Results of the actual conduct were aligned with laws over the past year, besides the Company had no any prosecutions or complaints for misconduct related to the environmental.

3. Risk Factors

The Company emphasizes the importance of standardized risk management. We, therefore, systematically established the policies to manage risks that affect the Company's objectives and goals to achieve sustainable growth and create value-added for the Company under our vision "To be the leading innovative plastic packaging solution provider worldwide" Risk management process is run by all management levels and under the supervision of the Risk Management Committee: RMC. Each group head collaboratively

-Signature-

..... Authenticate

analyzes potential risks and set up a mitigation plan deeply into operational level responsible by risk owners of that particular matter. In addition, the strategic planning and corporate strategy team regularly monitors, analyzes, and reports key findings to the Committee on a quarterly basis to ensure that both internal and external significant risks or any emerging risks will be mitigated efficiently aligned with the rapid changes in the business environment.

3.1 Strategic Risk

3.1.1. Risk in Strategic planning and implementation

Amid highly competitive environment in the industry, we, as an OEM/ODM manufacturer for the world-class customer as well as for our own-brand product, creating product differentiation especially in functionality, features and appearance to regularly respond to market and customer behavior changes on time will firmly benefit long term competitive advantages. The company accentuates the new product development process and people development to support the medium-term plan growth with a clear target with systematically monitoring by the management to ensure that the product will be launched as planned and achieve the target revenue

3.1.2. Risk in investment management

The Company is continuously investing to develop production efficiency to match with customer requirement, including searching for new business opportunities for Inorganic growth to expand our business according to strategic directions. There are possibilities that these investments might not provide the return on investment to the Company as planned, delayed or over budget. The Company set up the investment criteria and the follow-up and monitoring process. The solid feasibility study has to be executed, considering all internal and external factors before filing for approval. Moreover, all major investments have to be appropriately monitored and followed up to ensure optimal benefit and efficiency for the Company.

3.1.3. Risk in People capability management and development to support future growth

Due to one of the company's strategy is to focus on the revenue growth from our own-brand products to manage the risk and support long term growth, in the 2020 business plan, we distinctly aim to strengthen brand recognition by using the data from market research incorporated with our branding strategy to expand the market in both E-commerce channel and our distributors to reach our target consumer simpler and more extensively with the consistently monitored by the risk management committee.

3.2 Operational Risk

3.2.1. Risk of relying on a major customer

The Company has sold a high volume of products a major customer, which has a good long-term relationship with continuous business growth. This customer is highly satisfied with our products and classified us as one of the best regional suppliers. Nevertheless, the Company foresees the risk of over-reliance on this major customer and sets out policies in the following aspects: 1) To increase sales from other available major customers, 2) To expand the Company's customer base, such as increase online channel coverage, expand the customer base in the United States, Japan, and put more focus on ASEAN country 3) To develop new product

-Signature-

..... Authenticate

to expand new customer and propose new products to the major customer in order to increase a wide variety of products. Consequently, the Company has sold new products to the major customer without compromising the original product sales, sales from key customers have increased as well as the growth of new customers as planned.

3.2.2. Risk of raw material price fluctuations

Due to the fast-changing and development in the business environment such as production technology, work process, customer behavior, distribution channel including business strategy, people's capability, and skills development, the Company has continuously focused the adaptation of our people to keep up with these rapid changes. We set up long term people development plan with solid training programs for each department and begins to implement agile methodology with high impact investment project to ensure our employees will gain both knowledge and real work experience to expand to other projects in the future.

3.2.3. Risk of high production cost

Apart from raw material prices, the Company realizes that other production costs, such as labor costs, overhead expenses, and wastes from the production process, also have a substantial influence on business operations. The Company increases productivity through training programs that develop employees' skills and expertise, overhauling of machines including the development and improvement of the production process, and purchase of new machines with higher productivity. It aims at reducing the number of laborers needed by developing and enhancing the production process as well as implementing new technology. The Company sets up the cost reduction as a key performance indicator to ensure that all levels of employees realize the significance of cost management.

3.3 Financial Risk

3.3.1. Risk from exchange rate

The Company has more than 80% revenue from export products while importing most raw material from overseas. The majority of the exchange rate effect can be mainly mitigated by creating the balance between revenue and cost (Natural Hedge). However, the exchange rate still has a significant impact unless we apply a financial instrument. The depreciation of THB started in the 1st quarter of 2020, but oppositely tended to appreciate in 2nd quarter till the end of the year with a forecasting trend to maintain in this high level in 2021, depending on the world economic situation and the uncertainty of trade competition. Therefore, the Company has managed this risk by implementing the Forward Contract, in which the management makes the decision to exercise the contract based on the exchange rate situations for each transaction to minimize the fluctuation of the exchange rate.

3.4 Compliance Risk

3.4.1. Risk of quality control system

The Company sets "Quality" as our priority to support customer needs, so we concern about a quality control system in the production process, especially in product design and new process development. To manage this risk, the Company continues and focuses more on our quality management system, such as ISO

-Signature-

..... Authenticate

9001, GMP, HACCP and BRC, which are standards requested by customers. The Company arranges training, communicating, checking, following up, analysis, solving, and setting preventive action to avoid the recurring problems in time. In addition, the Company also regularly reviewed and developed the production process to align with the quality of product or service's changes to meet customer's requirements.

3.5 Emerging Risk

3.5.1. Infectious diseases

The COVID-19 the situation from the end of 2019 onward, which caused high negative consequences and has been widespread all over the world throughout the year 2020, affects people's lives, business operations, organizations including world economic growth. As a result, the stagnation of the business activities of the world supply chain is unavoidable. The management prepared for the possible impact by re-designing the Business Continuity Plan of the Company to specifically match with the situation and strictly implemented since the 1st wave of the pandemic. Therefore, we can prevent this outbreak in time, enabling us to normally operate with zero infected staff. Furthermore, the risk management committee assigned the management to prepare the mitigation plan to cover broader infectious diseases, not limited to COVID-19 to ensure that the Company has the plan in place to prevent possible epidemic diseases in the future.

4. Assets used in the business operation

4.1 Important assets used in the business operation

As December 31, 2020, The Company has significant assets used in the business operation by showing the cost after deducting the accumulated depreciation are net values as follows;

15. Management Discussion and Analysis for 2020

A) Results of Operations

The net profit after tax of Year 2020 was THB 347.8 million which increased by THB 103.3 million or 42.2% compared to Year 2019. Earnings per share was THB 4.35 higher than Year 2019 by THB 3.06 mainly because of the revenue increased by THB 170.8 or 5.6% and reduction of COGS. Detail will be described below:

- Overall product sales increased by 5.6% compared to Year 2019 summarized as below.

Sales Revenue	Bags		Drinking Straw		Other Products		Total Sales Revenue	
	2020	2019	2020	2019	2020	2019	2020	2019
International sales	2,554.8	2,317.3	85.6	143.0	129.5	120.3	2,769.9	2,580.6
Domestic sales	246.2	248.3	123.0	139.6	57.6	57.4	426.8	445.3
Total sales	2,801.0	2,565.6	208.6	282.6	187.1	177.7	3,196.7	3,025.9
Inc.(Dec)								
International sales		10.2%		-40.1%		7.6%		7.3%
Domestic sales		-0.8%		-11.9%		0.3%		-4.2%
Total sales Inc.(Dec)		9.2%		-26.2%		5.3%		5.6%

- In the midst of the pandemic of Coronavirus 2019 or Covid-19 affected the demand in the first half year of 2020 to be lower than usual but in the second half many countries adapt as circumstances change. Resulting in demand for reusable bags grown up from household use during lockdown and for hygiene purpose resulting in the revenue of reusable bags growth by 9.2% in Year 2020 and the overall of revenue increased by 5.6%
- Own brand is still the core strategy of the company. The company categorizes 3 main brand groups for variety consumer purpose. “SUN Mum&Baby” the product for mother and baby such as breast milk storage bags, “SUN Kitchen” the product for the kitchen such as zipper bag, life extending fresh&fresh product bag, garbage bag and “SUN Eco” 100% compostable product¹ for consumers who care for the environment. The flagship product of the company is still SUNMUM. Even though, COVID-19 pandemic limited various marketing activities, overall own brand income still maintains sales at the same level as last year and reduction was mainly from department stores’ sales, while sales from online channel and export grown up 73%.
- The company’s overall expenses increased by 1.1% compared to Year 2019, mainly due to
 - Selling and distribution expenses increased by THB 10.0 million or 10.6% compare to Year 2019 mainly increased from promotion and marketing expenses.

¹ Compostable product can be degraded itself in the right temperature and humidity.

- Administrative expenses slightly increased by THB 1.2 million or 0.5% because the company tried to reduce operating expenses. However, the company had a one-time expense of THB 9.2 million regarding to reserve for unutilized fixed assets, as part of our factory expansion plan in 2021 onward. Consequently, total administrative expenses were slightly increased.
- Cost of sales increased by 0.8% in line with the revenue increases but lower percentage than sales. As a result, gross profit margin in 2020 was 23.5% increased by 3.7% compare to 2019. 2 main reasons were 1) the price of key raw materials declined, while the selling price was gradually raise up, and 2) from continuous orders after COVID-19 led to efficient production and less production waste. Currently, the average price of key raw material has increased from Q3/2020 by 16% and will be impact to gross profit next quarter from not be able to adjust the selling price in time.

B) Financial position

Assets

As of December 31, 2020, Company's total assets were THB 2,511.5 million, increased from December 31, 2019 by THB 304.8 million or 13.8%. Significant changes in assets were followings;

- 1.) Total current assets were THB 1,559.7 million, increased by THB 257.7 million or 19.8% mainly due to cash and cash equivalent increased by THB 361.6 million or 108.0% compared to December 31, 2019.
- 2.) Total non-current assets were THB 951.8 million, increased by THB 47.1 million or 5.2%. The main reason from right-of use-assets which increased from the impacted of adoption in TFRS16 in the amount of THB 62.6 million.

Liabilities and Shareholders' Equity

As of December 31, 2020, company's total liabilities were THB 497.4 million, increased from December 31, 2019 amount of THB 99.0 million or 24.9% mainly due to 1.) liabilities under lease agreement which increased from the impact from the adoption in TFRS16 by THB 46.1 million 2.) Accrued income tax increased by THB 10.5 million from the net profit increased 3.) Provision for long-term employee benefits increased by THB 7.4 million from assumption change and 4.) increased from other accrued expenses in line with the expenses increased.

Shareholders' equity as of December 31, 2020 was THB 2,014.1 million, increased by THB 205.8 million or 11.4% compared to December 31, 2019 totally added up from the comprehensive income for the year 2020.

Report of the Board of Director's Responsibilities for Financial Statement

The Board of Director of The Thantawan Industry Public Company Limited responsible for the financial statement of the Company which have been prepared in accordance with the Financial Reporting Standards in Thailand under the Accounting Act B.E.2543, and the financial reporting requirements of the Securities and Exchange Commission under the Securities and Exchange Act B.E. 2535. The Accounting Policies pursued and deemed appropriate and applied consistently with adequate disclosure of important information in the notes to the financial statements. The external auditor has audited the financial statements and expressed an opinion in the auditor's report.

The Board of Director has provided appropriate and efficient internal controls to ensure that accounting records are accurate, reliable and adequate to protect its assets and uncover any weakness that may be present in order to prevent fraud or materially irregular operations.

In this regard, the Board of Director has appointed an Audit Committee to be responsible for reviewing the accounting policy financial reports, review internal controls, internal audit. The Audit Committee has also reviewed a disclosure of related party transactions. All their comments on these issues have included in the Audit Committee Report, which presented in this annual report.

The financial statements of the Company have been examined by an external auditor, Dharmniti Auditing co., Ltd. To conduct the audits and express an opinion in accordance with generally accepted auditing standards, the auditor was provided with all of the Company's records and related data as requested. The auditor's opinion is presented in the auditor's report as part of this annual report.

The Board of Director believes that the Company's overall internal control system is sufficiently effective to ensure the integrity and reliability of Thantawan Industry Public Company Limited financial statements for the year ended December 31, 2020. The Board of Director also believes that all these financial statements have been prepared in accordance with Financial Reporting Standard and related regulations.

Mr.Praisun Wongsmith

Chairman of the Board of Director

Thantawan Industry Public Company Limited
